

duisport expands international network

New hinterland connection to the Port of Zeebrugge

Duisburg, 11 June 2019 - Duisburger Hafen AG (duisport), the Belgium port of Zeebrugge (Port of Zeebrugge) and the Cosco-Shipping Zeebrugge Terminal (CSP) have intensified their collaboration. Now the trilateral agreement regarding the new hinterland connection for combined rail transport has been formalized in a contract.

Cosco Shipping Lines has recently expanded its activities as part of the "Belt & Road" initiative with a weekly maritime connection from China to Zeebrugge. A weekly shuttle train transports goods between the Cosco-Shipping Zeebrugge Terminal and the Duisburg Intermodal Terminal (DIT) at logport I in the Port of Duisburg.

The operational processing of the train is handled by duisport subsidiary duisport agency GmbH (dpa). dpa is the central sales company providing solutions for traffic relations, transport chains and logistics. In this context, dpa draws on its extensive experience in intermodal transport solutions.

Duisburger Hafen AG owns and manages the Port of Duisburg, the world's largest inland port. For this port and logistics location, the **duisport Group** offers full service packages in the area of infra- and superstructure, including relocation management. In addition, the subsidiaries also provide logistics services, such as the development and optimization of transport and logistics chains, rail freight services, building management and packaging logistics. www.duisport.de
