

First major customer for logport VI

DSV builds distributor gate in the Port of Duisburg

Duisburg, 16 January 2020 - DSV, one of the world's leading logistics groups, will build a mega distribution center in logport VI.

The 40-hectare logistics park logport VI is a former industrial area that was developed by the duisport Group for companies that are active in the area of value-creating logistics (contract logistics).

According to duisport's Chief Executive Officer Erich Staake, the goal is to generate many more workplaces than the 300 people that previously worked in paper production on this site.

Commissioning is expected to take place in the summer of 2021, with over 300 new workplaces created. The use concept provides for a land parcel of 12 hectares, which will initially feature a 56,000 square meter building with 76 dock doors.

The Denmark-based logistics group, which generates annual sales of EUR 15.8 billion, is a full-service provider of logistics services and also a leader in contract logistics. "This investment once more confirms our ability to provide our customers with the best economic environment as the leading logistics hub in central Europe," says Erich Staake.

logport VI has been designed as a trimodal logistics area with its own container terminal for optimum transport solutions. "We aim to provide our customers with sustainable competitive advantages in the Port of Duisburg and on the logport premises. Over 100 new companies have settled here in recent years, which underlines the attractiveness of our logistics concept," says Erich Staake.

Duisburger Hafen AG owns and manages the Port of Duisburg, the world's largest inland port. For this port and logistics location, the **duisport Group** offers full service packages in the area of infra- and superstructure, including relocation management. In addition, the subsidiaries also provide logistics services, such as the development and optimization of transport and logistics chains, rail freight services, building management, contract and packaging logistics. www.duisport.de
