

# Transcontinental Connections

INTEGRATED AND TAILORED LOGISTICS  
AND TRANSPORT CONCEPTS.

duisport 

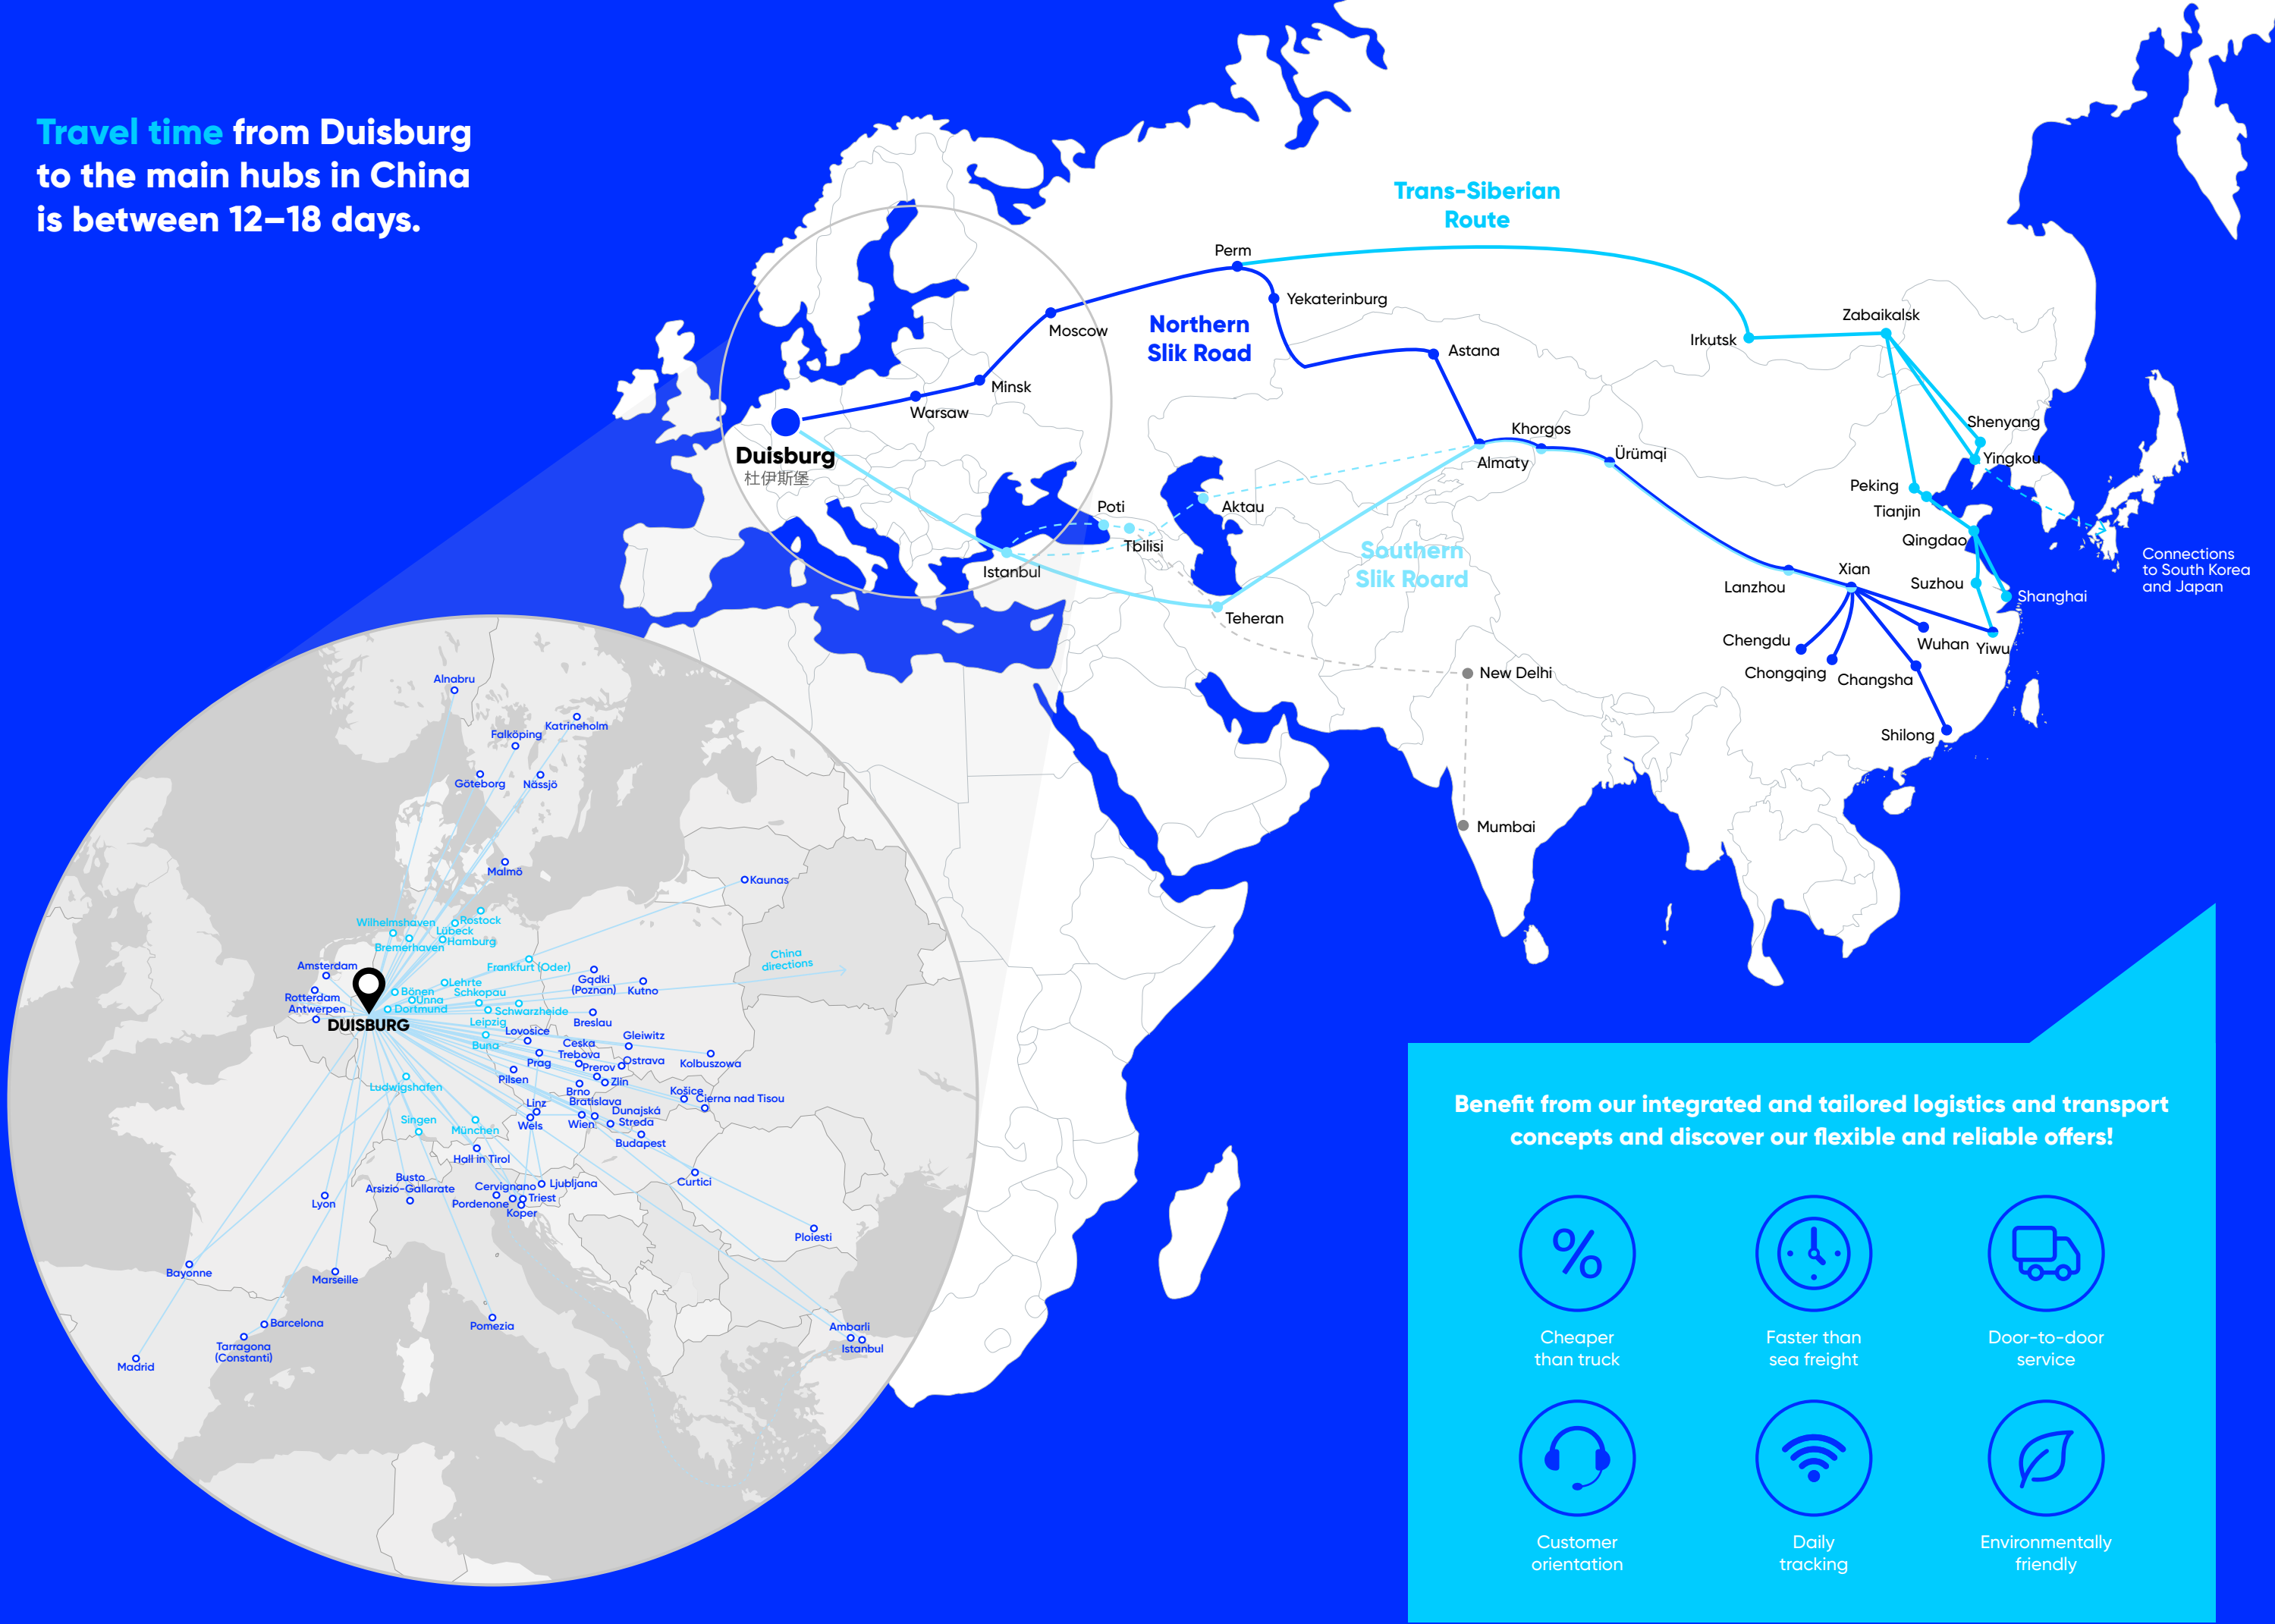

# Future-oriented logistics solutions for the exchange of goods between Europe and Asia

North Rhine-Westphalia is connected by rail with the most important business locations in Asia like no other region in Europe, with daily freight trains running between Duisburg and China. High performance operators and logistics suppliers offer efficient transport services in cooperation with the Port of Duisburg, which are faster than classic sea freight and more economical than air transport.

Benefit from our integrated and tailored logistics and transport concepts and discover our flexible and reliable offers! Beginning with door-to-door services, to packaging logistics, intermediate storage, provision of containers and customs clearance for total and partial loads – an innovative spectrum of services is available for the users of Europe – Asia connections.

Travel time from Duisburg to the main hubs in China is between 12–18 days.

Benefit from our integrated and tailored logistics and transport concepts and discover our flexible and reliable offers!

Cheaper than truck

Faster than sea freight

Door-to-door service

Customer orientation

Daily tracking

Environmentally friendly
